Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 10 March 2004.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 14-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 14, line 5, "a member" is recited comprising a first and a second opening, however, this recitation is indefinite since there is no embodiment disclosed which has a single member comprising both openings. Therefore, it is unclear what is being claimed. Applicant is requested to clarify. It is noted that claims 15-24 are included herein merely because of their dependency.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3,5,6,8-17,19-26,28-30,32-37 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Stanich 4,882,918.

Stanich clearly teaches a padlock protector comprising a shield having a rear surface with offset portions (15,22) and with integral arm members having

Art Unit: 3676

shackle receiving openings (18,19a) therein and wherein the arms are laterally and vertically offset to receive the curved shackle (S) accordingly. The shield further provided with a semicircular cutout (at 22 in Fig. 4) in the lower end to receive a combination dial therein. It is noted that the method limitations of claim 37 are considered inherent to the use of the Stanich device.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 4,27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stanich '918 in view of Elsfelder et al 5,219,384. Elsfelder et al teach arm members with a shackle receiving opening (12e'), disposed on a rear surface of a shield member (12a), comprising right angle brackets (12e). It would have been considered an obvious matter of design choice to modify the arms members of Stanich by substituting right angle brackets as taught by Elsfelder et al to be functionally equivalent.

6. Claims 7,18,31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stanich '918 in view of Anderson D330,843. Anderson teaches the use of a padlock shield member resembling a police badge. Stanich clearly teaches in Figs. 17,19 that the shield member may be formed in various shapes resembling

specific objects. Accordingly, it would have been considered an obvious matter of design choice to modify the shield of Stanich by providing a shape resembling a police badge as clearly taught by Anderson.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note the angle brackets of Poe '845.
